# MANITOBA SEED WHEAT.

—000—

The Undersigned, having frequently heard a desire expressed among the Farmers of Ontario, to obtain some of the **HARDY SPRING WHEAT OF MANITOBA**,--And, believing that such could be Imported here at a Fair Price both to Buyer and Seller, Notwithstanding the Difficulty of Transport and Cost of Freight—has Imported from that Province, **A LIMITED QUANTITY** of that Grain **FOR SEEDING PURPOSES**.

He would therefore now intimate to Farmers who Desire to Cultivate a Grain susceptible of Early Sowing, and *MATURING TWO WEEKS EARLIER THAN A MAJORITY OF SAMPLES OF SPRING WHEAT OFFERED IN ONTARIO, WITH A HEAVIER YIELD*; that they can now be Supplied in Quantities to Suit Their Means.

That every effort has been made to secure a Choice and Hardy Sample, is evidenced by the following extracts from the Press Commercial Reports. The St. Paul (Minn., U. S.,) *Despatch* says:

“Choice Lots of Manitoba Wheat were sold in Winnipeg, last week,  
“ $7\frac{1}{2}$  Cents above the Market Rate for Exportation to Ontario, for Seed.  
“This suggests the probability that Minnesota Wheat can be kept up to its  
“Present High Standard, by occasionally Importing Seed from Manitoba!”

## MANITOBA WHEAT IN NEW YORK.

“Considerable interest was manifested at the New York Produce Exchange, on Monday, over a Fine Specimen of Wheat Received by President Cole from Manitoba. The Wheat was grown in the Winnipeg District, and the berry was Plump, Hard, and Very Heavy. The sample was referred by President Cole to the Grain Committee for Examination, and they Pronounced it Equal in Every Respect, to the Best Grade of Spring Wheat that comes to the New York Market.”—Com. Report, *Mail*, Nov. 10th, 1877.

Recently, flour manufactured from similar wheat, was classed by the New York Flour Inspectors, as Equal in Quality to the Celebrated XXXX Minnesota Flour; a Brand of Flour Largely Used in the United States by Biscuit Manufacturers, and for Domestic Purposes.

As there has been but a Limited Quantity Imported for this purpose. of *bona-fide* Manitoba Wheat, it would be well for Intending Purchasers to **ORDER AT AN EARLY DATE**.

## PRICE \$                      PER BUSHEL.

**DELIVERED ON BOARD G. W. R. CARS, AT OAKVILLE, FREE OF CHARGE, ON RECEIPT OF PRICE,**  
OR QUANTITIES NOT LESS THAN TWO BUSHEL, SENT BY EXPRESS, C. O. D.
